A Woman and Her Age

As the Women's Liberation Movement spreads across this country, there are still some unsolved problems to be faced. Usually, a man will tell his right age. But a woman either says "21 plus" or subtracts. And she manages to convince herself that she is still telling the truth. Are women willing to face equality-and come across with the exact birthday?

I really doubt it My friend Peters has a simple complaint.

"When we were married my wife was only two years younger than myself. Now after twenty five years of married life, somehow she has become ten years younger than myself. Where did she find these eight years to subtract? And this past year when we gave her a birthday cake-she put the candles on it. Doesn't she realize that by making herself younger, she is making mysèlf older?"

But that is nothing compared to the problem that my friend, Diana, has. She was married when she was 17. Her daughter was born when she was 18. And Diana is now 34 which makes her daughter 16. So far, fine. But Diana's mother-who is thus a grandmother-happens to be a well known actress She was also married when she was 17. How old is she really? Make her 51. But she gives her age as only 38! And she insists that her granddaughter call her "mother" when they all go away for a vacation together. Poor Diana! As she sadly remarked to me,

"How old am I now supposed to be? Don't try to figure it out. And my daughter has two "mothers." Some fun. You just try to tell my mother she has to give her exact age!"

Tommy's Toys

The great business man decided to give his little son, Tommy, a surprise So he took him to see the great toy factory that he owned.

"That's the boss's kid," the workers said. "Nice looking and he must be smart like his old man."

Father took Tommy and showed him unit one where they were making the toy jumping frogs.

"Can I have one," asked Tommy. "I can have a lot of fun with it Please give me one."

Father ignored the request of his little son and then took him to unit 9 where they were making the toy planes.

"Can I have one of them," asked Tommy. "I want to see it fly in the air."

Again Father ignored that request and took him to unit 11 where they were making the toy submarines.

"Can I have one of them," pleaded Tommy. "I could have a lot of fun with it in our pool."

Again Father ignored the request of his son. And then he noticed the boy's eyes were starting to shed some tears.

"Don't cry," son he said. "When you are 21 years of age the factory and all the toys will be yours."

The boy thought for a few minutes and then came up with the perfect answer:

"But I won't be a boy then and I won't enjoy the toys. I want them now while I am a boy."

P.S.: He got them!

The Mathematician

The professor is regarded as the greatest living mathematician in the entire world He is the man who made possible our modern computers. Your modern big airplanes are only in existence because of his brain. Two of the largest dams in the world were only finished because of his computations. He has written more than twenty eight books and about three thousand articles on the subject of mathematics in all its fields and divisions

He is many times a millionaire. And he still is a bachelor. He has a few hobbies. He likes to play golf, do scuba diving, and visit the nightclubs. His secretary is a middle aged man who hasn't even a college degree. And his knowledge of mathematics is rather limited.

On this particular evening I saw him and his secretary seated at a table in "Club Romeria." He certainly was enjoying himself as the girls did their dancing numbers. I watched him thinking that scholarship does pay in dollars and cents. And next month the President of the United States was sending him to represent us at the Third International Conference of Mathematicians to be held in Geneva.

The professor arose from his seat and walked over to another table to greet a friend. I noticed his secretary doing some calculations on a sheet of paper.

"Why should you be doing this?" I asked "The professor is the expert in mathematics?"

"Not in this line," he smiled. "Totally incapable of checking on the figures they put on your bill. I do it for him."

Never finished high school?

Now you can get a diploma without going back

You already know why it's important to have a high school education. You've probably learned the hard way that it can be pretty difficult to get the kind of job you want without one. No matter how hard you're willing to work.

What can you do about it?

Maybe you've thought of trying again to get a diploma. But you've suffered enough classroom "battle fatigue" to last you a lifetime. So you'd hate to travel that route again even if you could.

But what if we told you that there was now a much better way to get a high school education? An adult way, which gives you regular high school subjects and your choice of practical vocational subjects which help you get started in one of a number of profitable fields.

That's the unique Wayne School way. You do your reading and assignments in your spare time, in the relaxed atmosphere of your own home, and "turn in" your completed assignments by mail. You don't have to give up your present job. You don't have to study or travel to class at inconvenient times.

And you needn't be afraid of dropping out all over again, if you had trouble with school before. Wayne's specially prepared lessons make even difficult subjects much easier to take. And Wayne grades your assignments in private, by mail. You're free from competitive classroom pressures. You stay relaxed, and your progress is much smoother.

If you're 17 or over and not now in school, send the coupon below to receive — by mail — Wayne's free booklet "How to finish High School at home." Wayne will also be glad to ask its local representative to contact you and answer any other questions you may have about finishing high school at home. No obligation.

"DR. SEUSS'S ABC"

with these 4 BRIGHT AND EARLY BOOKS all for only $1.95

DR. SEUSS'S ABC
A remarkable book that can help your child learn the sounds of the letters. Funny words and pictures keep a child laughing as he learns. Yours to keep even if you don't buy any books ever.

SEND NO MONEY—MAIL COUPON TODAY

Now, some of the most unusual creatures ever to frolic through the pages of a book are here, to show your child how much fun learning to read can be. Your little one will meet them in BRIGHT AND EARLY BOOKS, the remarkable books created by Dr. Seuss and his friends for 2 to 6 year-olds.

Take a look at the books, and you'll know why children fall in love with them. First, there are the wonderful wacky characters—"reading teachers" so entertaining they'll hold your child's attention from first page to last! Then there are the subjects . . . of vital interest to your little one, now, in the early years when he's intent on discovering everything there is to know about himself and his exciting world.

For example, his own ears and what they hear; tongue-tickling sounds he can make; his hands and what they do; and (with the help of some bike-riding bears) he can even learn to count and find out how numbers work.

The sparkling little words and catchy rhymes in BRIGHT AND EARLY BOOKS encourage a child to try reading. And the marvelous illustrations help, too. Youngsters can't resist them . . . and as they pore over them they begin to put the words and pictures together. Soon, with some help from Mom or Dad, a child may discover he's actually reading *on his own!*

From this happy start—on to bigger things!

The four BRIGHT AND EARLY BOOKS shown here are the starter books in the BEGINNING READERS' PROGRAM. At the publisher's catalog price, they cost $10.00. But, as an introduction, you may have all four for only $1.95. They can get your little beginner off to a happy start in reading. And then it's an easy glide right into reading regular BEGINNER BOOKS . . . for they begin where BRIGHT AND EARLY BOOKS leave off!

As a member of the program, your child will receive a BEGINNER BOOK each month, and you will be billed only $1.95 (instead of the retail price of $2.50) plus delivery. *(The postman will bring the package addressed to your little one, in his own name!)* You may cancel membership at any time.

Enjoy this 10-day treat FREE!

Can these delightful "reading teachers" charm *your* child into reading? Before you decide, see the books for yourself . . . and let your child enjoy them. You and your little one must be delighted, or you may return the four introductory books within 10 days and owe nothing. To start the books coming your way, just fill out and mail the attached order form, today. J2B1
